

GALLERY OF AMAZING THINGS®

March 20, 2013

In October 2011 we purchased a large commercial building in South Florida. Because the building had been vacant for nearly five years, there were numerous problems - many of them serious. I met Mr. Leon through an associate who highly recommended him. Mr. Leon suggested a strategy to deal with the most pressing construction issues and helped navigate all of the work in the building and worked with our bank on the construction financing. Mr. Leon worked tirelessly on our behalf to meet impossible deadlines. Not only did Mr. Leon tackle insurmountable obstacles, he did so with creativity and brilliance. We couldn't have done it without him.
